

Changing Faces

Here's a funny fellow whose face you can keep changing over and over. Don't like his nose just move the yarn and give him a new one. When you're done playing fold the card in half and fasten the Velcro. Great for car trips.

Here's how to do it:

1. Print out on cardstock.
2. Cut a piece of yarn 7" long.
3. Attach one end of the yarn to the circle at the top of the face and the other end to the circle at the bottom of the face.
4. Put a piece of Velcro on each end where it says, "Velcro."
5. Carefully fold the cardstock in half so the Velcro touches.
6. Have fun!
