

Fortuneteller Pattern

How to play

1. Put each of your thumbs and index fingers under an open corner on the outside of the fortuneteller.
2. Have a friend choose one of the objects or colors.
3. Spell out the name of the object or color as you open and close the fortuneteller in opposite directions once for each letter. Hold it open on the last letter so that just 4 of the numbers show.
4. Now have them choose one of the numbers showing.
5. Open and close as before spelling out the number.
6. Have your friend pick another number. Lift the flap and read the fortune.
